

MAGIC GUM GONE READY TO USE LIQUID CHEWING GUM REMOVER

Sheet Code: W88

DESCRIPTION

MAGIC GUM GONE has been developed for the safe and effective removal of chewing gum deposits. MAGIC GUM GONE should become part of the daily cleaning routine as it is always easier to remove chewing gum in the first few days whilst it is still soft and pliable. It can also be used effectively to remove labels, sellotape and any other sticky gum substance from windows, walls and other hard surfaces without causing damage to the surface.

AREA OF USE

Carpets, floors, and all other hard surfaces.

METHOD AND DILUTION

Spray directly from the bottle. Do not dilute. Please check suitability of **MAGIC GUM GONE** on the surface to be cleaned in an inconspicuous area to avoid any damage to the surface.

Chewing Gum:

Prick the surface of the gum thoroughly with either a fork or similar implement and spray **MAGIC GUM GONE** liberally over the chewing gum. Allow approx. 2-3 minutes penetration time before scrubbing away the gum with a nail brush. Sweep up removed chewing gum debris into dustpan and dispose. It may be necessary to repeat this process for older or larger chewing gum deposits.

Sticky Label Removal:

Spray **MAGIC GUM GONE** directly onto the label and allow 2-3 minutes penetration time before scraping from the surface with an appropriate scraping implement taking care not to damage the surface. After removal, wipe over surface with appropriate hard surface cleaner to remove any gum residue and excess product.

HEALTH AND SAFETY

Harmful: May cause lung damage if swallowed. If swallowed do not induce vomiting. Seek medical advice immediately and show this container or label. Avoid contact with skin. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

**KEEP OUT OF REACH OF CHILDREN.
DO NOT MIX WITH OTHER CHEMICALS.**
