PRODUCT INFORMATION SHEET

SC5 GLASS & STAINLESS STEEL CLEANER

PRODUCT INFORMATION:

A super concentrated blend of alcohol & surfactants designed to cut through film, haze, smudges, dirt, grease to leave glass & stainless steel clean & streak free

ADVANTAGES:

GENERAL PURPOSE APPLICATION:	SC5 is a super concentrated product effective on many surfaces such as stainless steel, chrome, plastic, computer keyboards, glass screens, ceramic, porcelain & mirrors.
EFFECTIVE SOIL REMOVAL:	Contains alcohol to evaporate quickly & cut through film, haze, smudges, dirt, grease & other soils both on the inside & outside of buildings.
NON-STREAKING:	SC5 leaves a clear, sparkling, streak and stain free surface without leaving a film.
COST EFFECTIVE SUPER CONCENTRATED CONTROLLED DILUTION:	SC5 is super concentrated & should be used through a controlled dosing unit at a rate of 20mls to 730mls water therefore reducing waste & controlling costs
BIODEGRADABLE:	Readily biodegradable water based cleaner.

DIRECTIONS FOR USE:

TRIGGER SPRAY: For use through dosing system dilute up to 2 part detergent with 37 parts water or using the manual dosing pump use 2 x 10ml pumps per 750ml trigger spray bottle.

BUCKET FILL: For use through dosing system dilute up to 1 part detergent with 100 parts water or using the manual dosing pump use 5 x 10ml pumps per bucket.

Apply by spray or mop & wipe off with a clean, damp cloth or mop. Do not mix with other cleaning materials.
