

ADAMATIC DESCALER MACHINE, VESSEL & HARD SURFACE DESCALER

Sheet Code: W3

DESCRIPTION

A powerful phosphoric acid descaler with corrosion inhibitors and wetting agents designed to safely remove the heaviest build up of lime scale from dishwashers, glass washers, tea urns, floors and other areas where lime scale is a problem.

AREA OF USE

For use in dishwashers, glass washers and other ware washing equipment and on hard surfaces.

METHOD AND DILUTION

Dishwashers/Glass washers etc

Switch off the **R.P. Adam Ltd** dosing equipment (if applicable).

Dilute **Adamatic Descaler** with up to 20 parts water depending on the degree of scale build up and add directly into the wash tank. For best results, heat water up to working temperature and circulate until all scale is removed. Drain solution, refill and rinse thoroughly with clean water. Drain again and refill with clean water. Switch on the **R.P. Adam Ltd** dosing equipment before continuing washing.

Tea Urns

Fill urn with water and add 10 plunges of **Adamatic Descaler** via 30 ml dispensing pump fitted to 5lt container. Allow approx 1 hour contact time. If necessary, agitate scale with green scouring pad to remove stubborn heavy scale deposits. Drain and rinse thoroughly with clean water.

Floors & Hard Surfaces

If you live in a hard water area and your water supply is untreated, routine floor & hard surface cleaning may leave scale deposits that will periodically need to be removed. Dilute **Adamatic Descaler** with up to 20 parts water and wash the floor or surface as you would under normal circumstances. Always rinse the floor or surface after descaling and clean again using the appropriate cleaning product.

N.B. The use of hot water will accelerate the effectiveness of **Adamatic Descaler**.

HEALTH AND SAFETY

Corrosive. Cause burns. Wear suitable protective clothing, gloves and eye/face protection. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. In case of accident, or if you feel unwell, seek medical advice immediately. (Show label where possible).

**KEEP OUT OF REACH OF CHILDREN.
DO NOT MIX WITH OTHER CHEMICALS.**
