

PRODUCT GUIDANCE SHEET

ARPAX A6

CONCENTRATED FLOOR CLEANER AND MAINTAINER

A powerful detergent cleaner formulated to remove the heaviest soil deposits and in grained grime from all types of hard floors. To aid product recognition the ARPAX A6 product label, the solutions, both concentrated and diluted, and the label on the trigger bottle are orange. Safe to use on Altro flooring. Test Certificate can be found in our Knowledge Area

Product Name:	ARPAX A6	ARPAX A6 500ML BOTTLES
Description:	Concentrated odourless floor cleaner/maintainer	Arpax A6 labelled spray bottles
Pack Size(s):	2x2Lt	1x6
Pallet Size(s):	160	NR
Product Code(s):	1057	1682

HOW TO USE

Suitable for a wide variety of cleaning operations in housekeeping and building services applications as a damp wipe surface/floor cleaner. Mildly alkaline the formulation is approved by Altro Flooring (tested via Altro Evaporation Test at 25:1*) and is therefore likely to be safe to use on all similar types of safety flooring at the stated dilution to prevent colour loss. It is also suitable for use as a damp wipe cleaner on all hard surfaces. Arpax A6 is non-biocidal and is therefore suitable for domestic floor cleaning applications in hospitals. * When tested to the Altro Evaporation Test: (Method 2, Doc No: 10.13), the ARPAX A6 Odourless Floor Cleaner & Maintainer, manufactured by R.P Adam Ltd, did not appear to cause staining or chemical/surface damage to any of the tested floor samples.

ARPAX A6 must be diluted before use using an Arpax bottle or bucket fill dispenser. For a bottle cleaning solution dilute with one plunge of dispenser per orange labelled Arpax A6 spray bottle and fill with water; for a bucket cleaning solution add two to four plunges of dispenser to a bucket of water depending on the degree of soiling; or via an automatic chemical/water mixing station.

Bottle Fill Instructions:

1. Unscrew trigger spray from bottle and fill with water to the top of the label.
2. Insert bottle neck on to the dispensing nozzle and push upwards – priming the unit.
3. Position spray bottle on the base of the drip tray to allow vending to commence.
4. PULL lever towards you in an upward direction until it CLICKS. This is now ready to vend.
5. To vend product PUSH lever downwards. The concentrate will be dispensed into the bottle at the correct dilution to water.
6. Remove the bottle from the base and screw trigger spray onto the bottle. Turn bottle upside down to ensure thorough mixing has occurred.
7. WAIT for the green indicator to reappear in the window before inserting the next bottle for vending.

Bucket Fill Instruction:

1. Pull GREEN lever in an upward direction until it CLICKS to prime the unit.
2. Pull lever towards you in an upward direction until it CLICKS. This is now ready to vend.
3. To vend product PUSH lever downwards. The concentrate will be dispensed into the bucket at the correct dilution to water.
4. Wait for the green indicator to reappear in the window before vending again. It is suggested that 3 plunges is sufficient product in a 23lt bucket of hot water.

SAFETY ADVICE – WHEN HANDLING or DISPENSING THE CONCENTRATE

DANGER Causes serious eye damage. Causes skin irritation. Wear protective gloves and eye protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Immediately call a POISON CENTRE or doctor/physician. IF ON SKIN (or hair): Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention.

For further detailed information on this product please refer to the Safety Data Sheet.

FOR PROFESSIONAL USE ONLY

SAFETY ADVICE – WHEN USING THE DILUTED SOLUTION

Wearing eye protection is recommended when dispensing concentrate into bottle, but generally not needed for normal use of the cleaning solution. Wear suitable gloves. Avoid contact with eyes and skin. In case of contact with eyes, rinse immediately with plenty of water and seek medical attention. Keep out of reach of children.

COSHH STATEMENT

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product MSDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed with regard to specific issues in your work environment we are happy to provide advice.
