

# **PARKSIDE IRELAND LIMITED**

## **PRODUCT INFORMATION SHEET**

### **DIAMOND 2000.**

#### **PRODUCT DESCRIPTION:**

A concentrated alkaline degreaser/sanitiser for the removal of organic grime from all hard surfaces and equipment in food production , preparation and service areas. Tested to EN 1276 standards for use of sanitisers in the Food Industry within the European Union.

---

#### **ADVANTAGES:**

**ALL-PURPOSE APPLICATION:** Diamond 2000 can be used to remove food and drink based soils from most hard surfaces.

**HARD CLEANING POWER:** Diamond 2000 contains a careful blend of alkalis, sequestrants, surfactants and emulsifiers, which can remove even the most tenacious of soiling.

**DILUTION AND METHOD** **Dilute using bottle fill dispenser. Product MUST be diluted before use**

1. Fill bottle with water to the top of the label.
2. Insert bottle on to the dispensing nozzle and push upwards- primes unit
3. Pull lever out until it clicks.
4. Push lever downwards, gives correct dilution for the water in the bottle
5. Replace trigger spray, invert bottle to ensure mixing has occurred.
6. Wait until the green indicator button has reappeared before filling a fresh bottle.
7. spray on to surface to be cleaned and allow a few minutes contact time. Agitate if necessary using a scouring pad or cloth. Rinse thoroughly or wipe dry with a cloth.
8. To sanitise, spray the surface again, leave for 5 minutes and wipe dry using a paper towel.

**SOLVENT FREE:** Diamond 2000 contains no solvents, which are harmful to the environment.

**BIODEGRADABLE:** Readily biodegradable.

**EASY TO RINSE:** Diamond 2000 can be easily rinsed off leaving no harmful or unsightly residues.

#### **HEALTH & SAFETY** **See Material Safety Data Sheet**
