

HERE THE PAPER IS NATURAL AND THE COLOUR IS TOO!

- ✓ Eco Natural Paper reduces our carbon footprint
- ✓ Eco Natural Paper is made from high quality fibres found in drink cartons, just like the ones you have in the fridge at home...Milk, Fruit Juice, Soup!
- ✓ 100% recycled, no added bleaching, colourings or dyes and no compromise on quality. The fibres retain the natural colour of the wood.
- ✓ Efficient recycling of paper saves energy, reduces water consumption and carbon emissions.
- ✓ Give a second life to a carton and avoid landfill or incineration!
- ✓ The carton plastic caps, polyethylene and aluminium liners are also reprocessed and made into useful products.
- ✓ No additional trees were required in the making of this product!
